KeyATM Japan

Covariates:

Democrats vs Republican

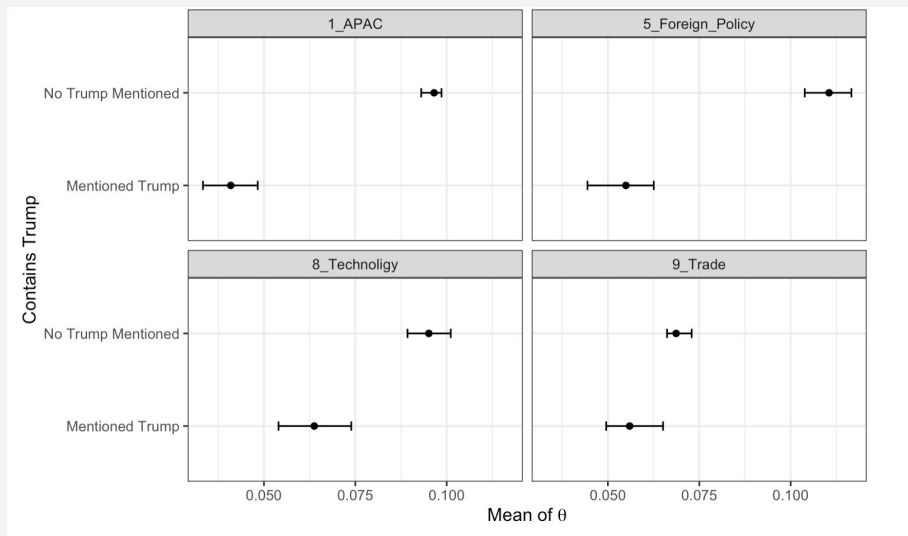

China

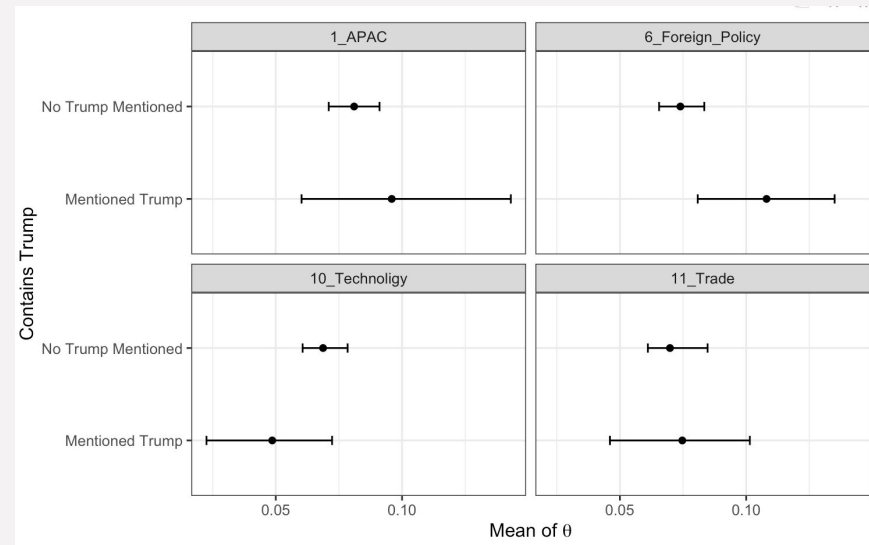

Japan

Covariates:

Four Topics of interest in the presence of “trump mentions)

China

Japan

Conclusion

- China are more likely to be politicized by US news platform than Japan
 - China
 - High Key ATM proportion of **election**
 - When trump are mentioned, more likely to be associated with political topics
 - Japan
 - Have a much higher emphasis on **entertainment**
 - Cover wide variety of topics

Limitation & Reflection

- Better preprocessing technique with KeyATM mode
 - Remove ‘s, remove “China” and “Japan”
- Collect more data (5 years)
- Add another country for comparison: Russia
